### About the Survey:

This survey and awards program is designed to identify, recognize and honor the best employers in the accounting industry, benefiting the industry's economy, workforce, and businesses. The list is made up of 100 companies.

Companies from across the United States entered the two-part survey process to determine Accounting Today's Best Accounting Firms to Work for. The first part consisted of evaluating each nominated company's workplace policies, practices, philosophy, systems, and demographics. This part of the process was worth approximately 25% of the total evaluation. The second part consisted of an employee survey to measure the employee experience. This part of the process was worth approximately 75% of the total evaluation. The combined scores determined the top companies and the final ranking. Best Companies Group managed the overall registration and survey process, analyzed the data and determined the final ranking.

“The firms on this list represent the best workplaces in the accounting profession,” said Accounting Today Editor-in-Chief Daniel Hood. “They are outstanding places to build a career.”
