

Meet the 2019 Fort Worth Interns

This Summer is flying by! Our interns are already halfway through their internship! Over the last month, our Fort Worth Interns have been exposed to a variety of work in regards to Private Equity. With the amount of tax work that needs to be done; Rochelle has been working with structure charts and HCVT's Treehouse software to understand how income flows up through pass-through entities within a Partnership. Viviana, on the other hand, has been learning more about basis calculations for partners receiving K-1s. Her research opportunities have given her knowledge on the tax effects of negative basis and how it can affect a Partner's K-1. Throughout this time, both interns have enjoyed how much mentorship and teaching is given to them and find their internship experience at HCVT to be a gratifying and fun learning experience!
