The federal government provides tax incentive programs to help encourage businesses to hire employees from targeted groups and locate businesses in certain geographies, or Empowerment Zones. Understanding the qualification criteria and application process for these incentives is complicated and requires professionals that understand tax incentive programs. HCVT helps employers apply for and document these incentives—and achieve tax savings.

WOTC & Empowerment Zone Tax Incentive Services

The Work Opportunity Tax Credit (WOTC) and Empowerment Zone benefits often are an overlooked tax incentives that can yield significant tax savings and improve the annual cash flow of a business. The WOTC program provides employers the opportunity to receive tax benefits for hiring targeted groups. Included in these groups are unemployed and disabled veterans, and individuals who receive assistance under governmental programs. Our hiring and screening process will assist employers who hire from targeted groups to help ensure they obtain the highest benefits available. WOTC and other federal incentives can yield up to \$9,600 in tax credits per qualified employee. HCVT's tax incentive approach can be customized to each client's individual situation to maximize benefits in a cost effective manner.
