The pace of innovation and commercialization of products and services in the technology sector brings many opportunities and challenges for business owners. Funding research & development, managing the supply chain, managing cash flow to fund growth, regulatory compliance, and global expansion are just some of the challenges you face on a daily basis.

Our team of professionals serves technology clients in all phases of the business cycle ranging from start-up, rapid growth to businesses seeking liquidity events. We understand the audit and tax issues of the technology industry sector. Whether online retail, software as a service, Internet companies, or hardware and devices, our team brings solutions that help manage risk and achieve your business goals.
